Runners Needed for Study

Do carbon fiber insoles make it easier to run?

The Physiology of Wearable Robotics Lab at Georgia Tech is looking for volunteers to take part in a study to see if carbon fiber insoles affect running mechanics and energy expenditure. We are seeking healthy runners over the age of 18 years.

To take part, you must:

- Have run 5 km <25 min
- Have no current musculoskeletal injury
- Wear shoe size men’s US 8-12 or women’s US 9-13

The experiment has 2 sessions, lasting 2-3 hours each day.
