Nanoscience Summer Institute for Middle School Teachers

at the Institute for Electronics and
Nanotechnology at
Georgia Tech

June 10-13, 2019

**Application Deadline
April 15th, 2019**

The National Science Foundation estimates that by 2020 we will need 2 million workers in nanotechnology. The goal of this workshop is to equip Georgia teachers with the knowledge and resources to integrate standards-based nanotechnology lessons into their classrooms.

- 4 day stipend of \$600, full attendance required
- \$100 worth of classroom supplies upon completion of workshop
- Housing & parking available
